

**Parent Education Night:
How and why we talk about gay issues at school**

**Tuesday, April 6th
7:00-8:00pm
Dixie Elementary School Library
1175 Idylberry Road
San Rafael, CA 94903**

Many parents have understandable concerns about elementary schools addressing issues related to sexual orientation and gender identity. Unfortunately anti-gay name-calling, teasing and bullying are a reality in our schools and these behaviors begin as early as kindergarten.

Educators are faced with a dilemma: how do we respect deeply held personal beliefs and simultaneously ensure that *all* students can learn in a safe climate, free of bullying, violence and exclusion?

We encourage you to join us for a presentation about how we use anti-bias programs to create inclusive curriculum and accepting school climates in developmentally appropriate ways.
