Annual Notification:
Dixie School Parents and Employees

Spring 2008

Dear Dixie School Parents and Employees:

On October 22, 1986, the President signed into law the Asbestos Hazard Emergency Response Act (AHERA) which requires that the District annually notify employees, building occupants, or their legal guardians, and outside vendors regarding AHERA- related activities. This includes building inspections, reinspections, response actions, and post-response action activities including periodic reinspection and surveillance activities that are planned or are in progress.

The original Inspection Report and Management Plan have been available for review in the Maintenance office and the Dixie District Office since the spring of 1989. As required by AHERA, the 3-year Reinspections have been conducted and the current reinspection was completed in February 2006. Copies of the Reinspection Report have been included in the Management Plan located in the school and district offices. Information regarding any specific abatement activities is included in the Report.

Any further questions may be directed to Plumas Science Research, the designated firm responsible for AHERA compliance for Dixie Elementary School District.

Sincerely,

Ginny Pheatt
